

Thank You for Caring

As 2013 comes to a close, the Thurston Mason County Medical Society and CHOICE Regional Health Network wish to thank the generous physicians, nurse practitioners, other medical professionals, and volunteers who have participated in Thurston County Project Access and have donated their services to this community for the last 8 years. We thank you for your commitment to caring for some of the most vulnerable members of our community.

Project Access in Thurston County completes its program as of December 31st. More than 465 providers, clinics and hospitals that have provided over \$24 million worth of donated medical care to 3,648 low income, uninsured individuals with an acute or urgent medical need since 2005.

Our special thanks go to Dr. Steve Albrecht and Noha Gindy, who had the dream and the passion to develop this program in Thurston County. Likewise, we thank Dr. Rodney Joe, the Volunteer Care Institute Chair of the Thurston Mason County Medical Society (TMCMS), Susan Peterson, the former TMCMS Executive Director, and Holly Greenwood of CHOICE for their leadership over the last 5 years, and Katrin Palmer and Marlene White with CHOICE for their day-to-day running of the program. Lastly and most importantly, a special thank-you to the many benefactors and community partners who made it possible for Project Access to be of service to our community.

A Special Thanks to our Community Benefactors, Partnerships, and Volunteers who have supported Project Access so generously over the last eight years!
